

COOK EXPERT ACCESSORY

The first thermocooker with a non-stick casserole slow cooking accessory.

MULTIFUNCTION

3 cooking modes:

- On the **Cook Expert**: for simmering and slow cooking at precise temperatures
- On **cooktops (including induction)**: for successful searing
- **In the oven**: for high temperature cooking

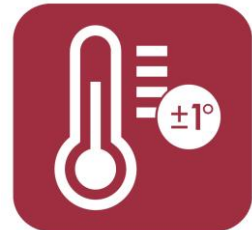

SIMPLE & DURABLE

The condensation pins on the underside of the lid is essential for slow cooking - it ensures the dish is fully infused with flavour for consistently soft and tasty results.

The non-stick coating will ensure reliable slow cooking with minimal added fat.

With a large capacity (7L) it will allow you to delight the taste buds of your guests, up to 10 people.

Compatible with all Cook Expert products.

UP TO 2X LIGHTER

Made out of trusty cast aluminium, which is up to 2x lighter than enameled cast iron. Make stews, breads and more without having to lift heavy, cast-iron pots.
